PREFACE

This valuable resource word search tool, with over 30,000 selected words rearranged and grouped alphabetically **based on their spellings in reverse order starting from right to left**, provides an easy way for finding specific or rhyming words. This Dictionary is useful for Students, Teachers, Writers, Poets, Crossword Solvers, Special Education Professionals and Communication Disorder Specialists.

30,000 common useful words of the English language are carefully chosen for inclusion in this Dictionary. These chosen words are 'flip-sorted' in their reverse spelling order, starting with the ending of the word progressing the sequence towards the beginning of the words.

These flip-sorted words are then grouped in the orders of words ending in A, B, C ...to Z. Then these grouped words are sub-grouped alphabetically in smaller groups for ease of search in smaller lists.

Finally, within each list of the sub-group, the words are shown in their usual dictionary order for the ease of their search, as shown : the first group (ba-ha) starts with word ending in ba, then ca, cca, ica, lica, mica, ...da, ea, ...to ha; then the next group (ia-na) has words starting with ia, ka, la, ...to na, followed by the group (oq-za) that starts with words ending in oa to za. Similarly the next group (ab-ub) starts with the words ending in ab, eb, ib ...to ub and so on for words ending in b, then for the words ending in c, d, e, ... and finally az, dz, ez ...to zz.

Many writers and authors have used this tool for their literary works with great joy and sigh.
